A CANVEN GROUP PLT COMPANY

Sanyang Petroleum

Principal Petroleum Trading. Direct from Source.

Company Registration No: LA0067769P

www.sanyangpetroleum.com

Who We Are

Principal Trader

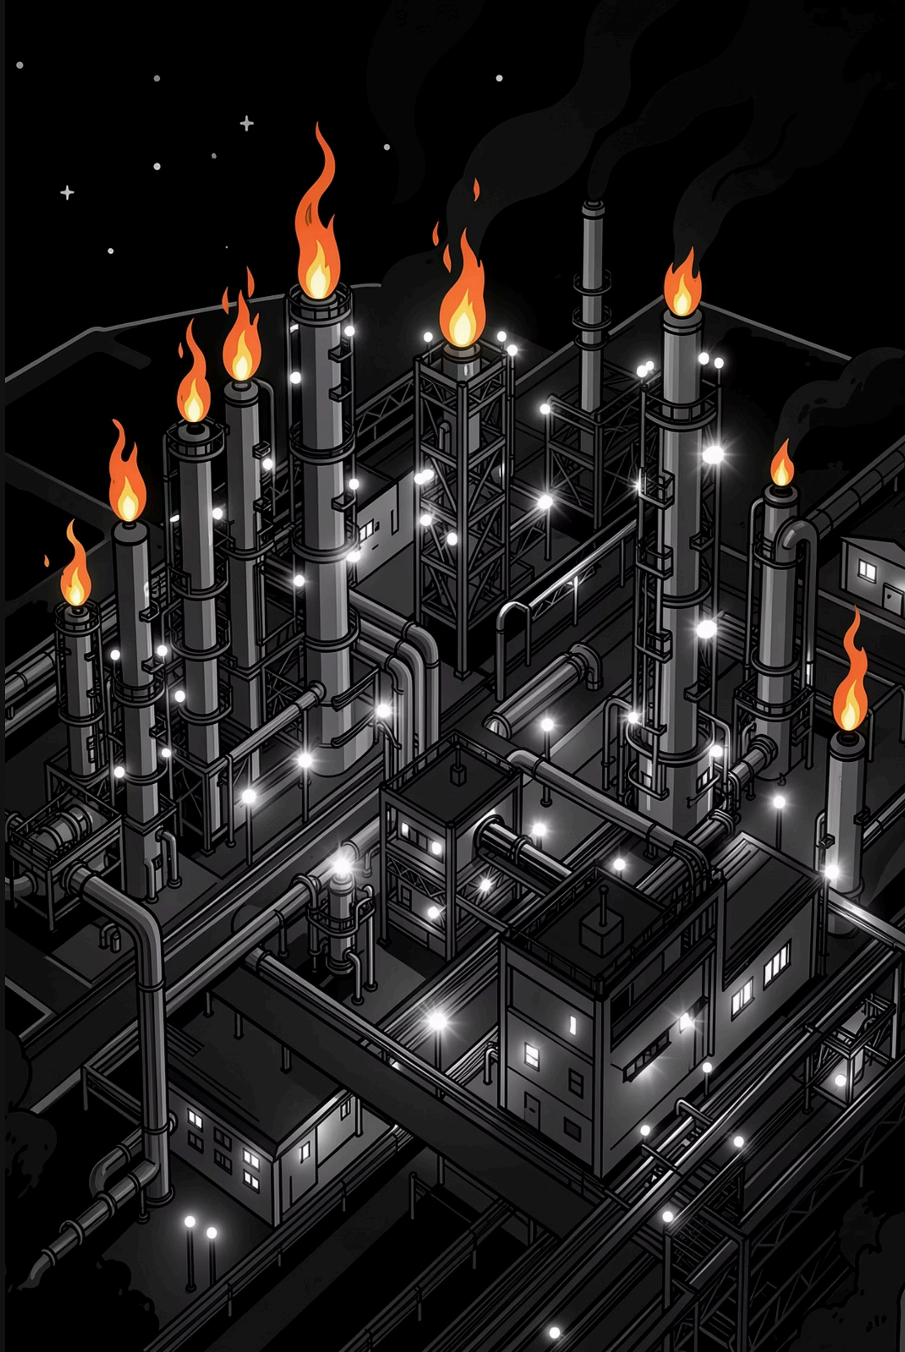
We take title to product. We buy and sell in our own name — not as broker or agent.

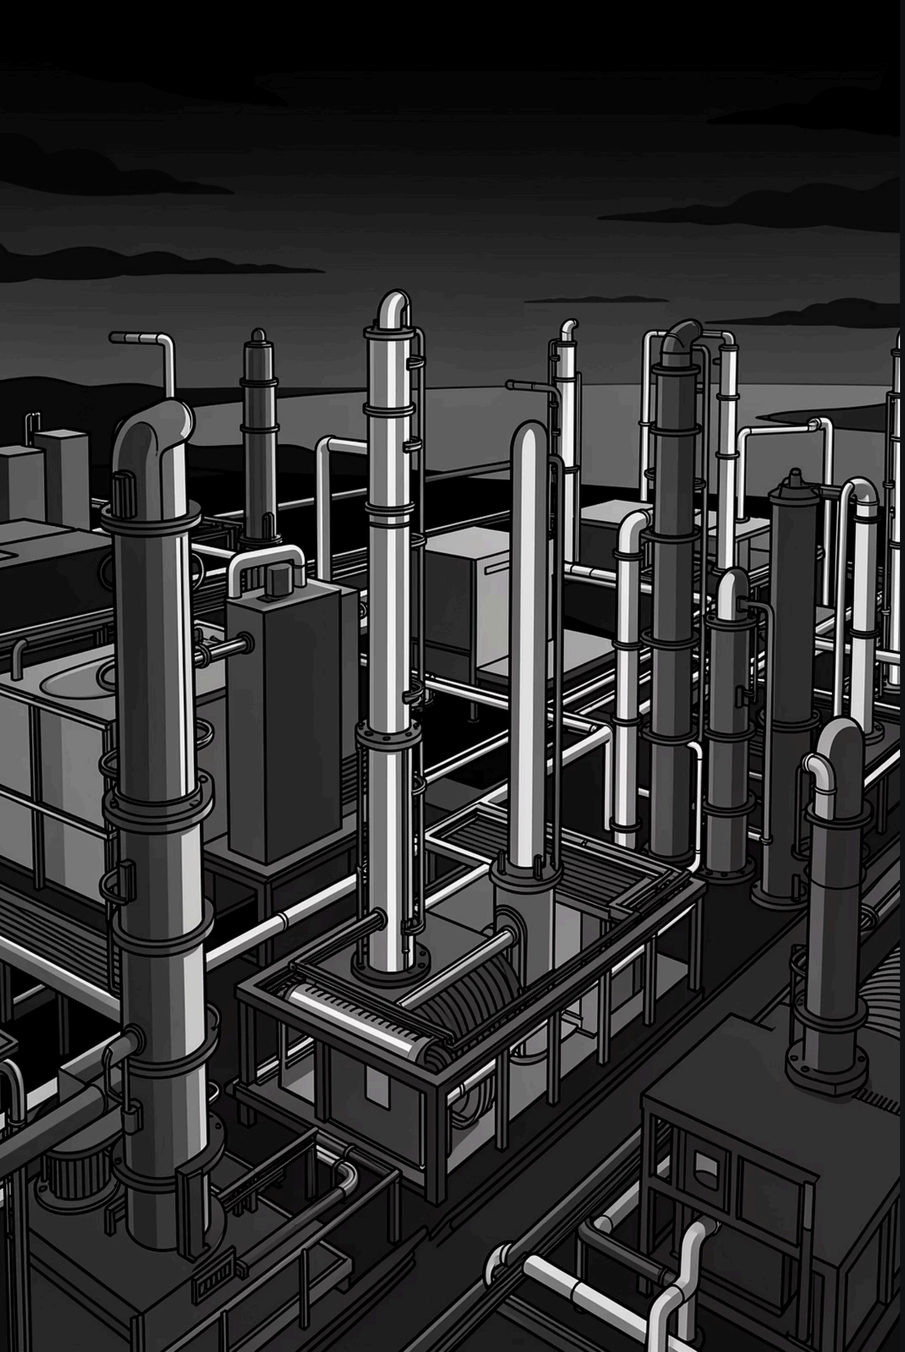
Source-Direct Access

Direct producer and refinery-origin relationships, with bankable LC and TT settlement terms.

Relationship-Driven

Discreet, disciplined trading backed by rigorous risk control and trusted counterparty standards.





PRINCIPLES

Our Values

Integrity

Every contract is honoured on its terms. No ambiguity, no deviation.

Reliability

Counterparties depend on us to perform. We deliver what we commit to, every time.

Solutions

We solve supply problems, not just fill orders. Every counterparty is treated as a long-term relationship.

Discreet. Disciplined. Dependable.

VISION

Our Ambition

To become one of APAC's leading petroleum trading brands, serving end-industry users across every product line.

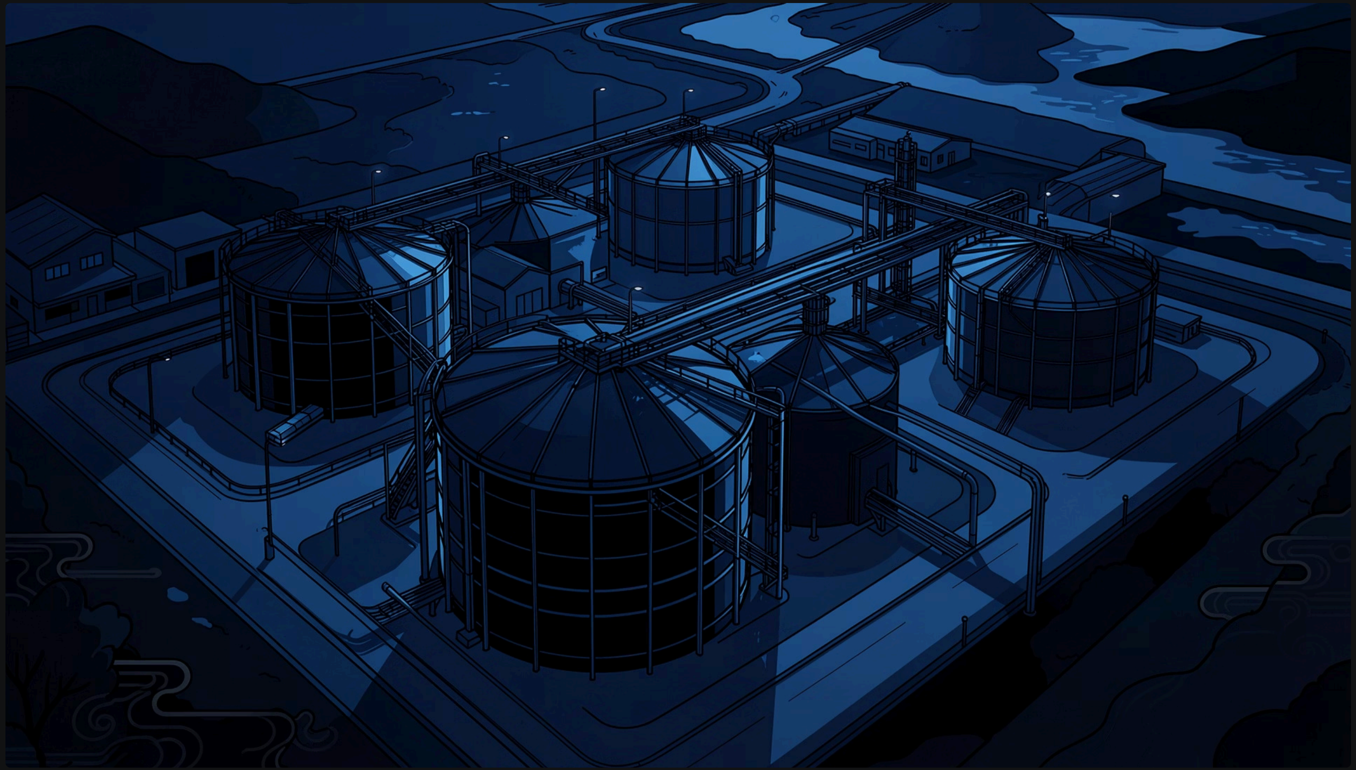
Settlement

Scope reflects current trading mandate and product coverage.



OUR FOUNDATION

Built on Experience

Established in 2023 as the downstream petroleum arm of Canven Group — a new entity underpinned by trade finance relationships and trading partners with decades of combined market experience.

We pair agile, modern execution with the discipline and banking relationships of seasoned commodity professionals.

How We Trade

Principal Contracting

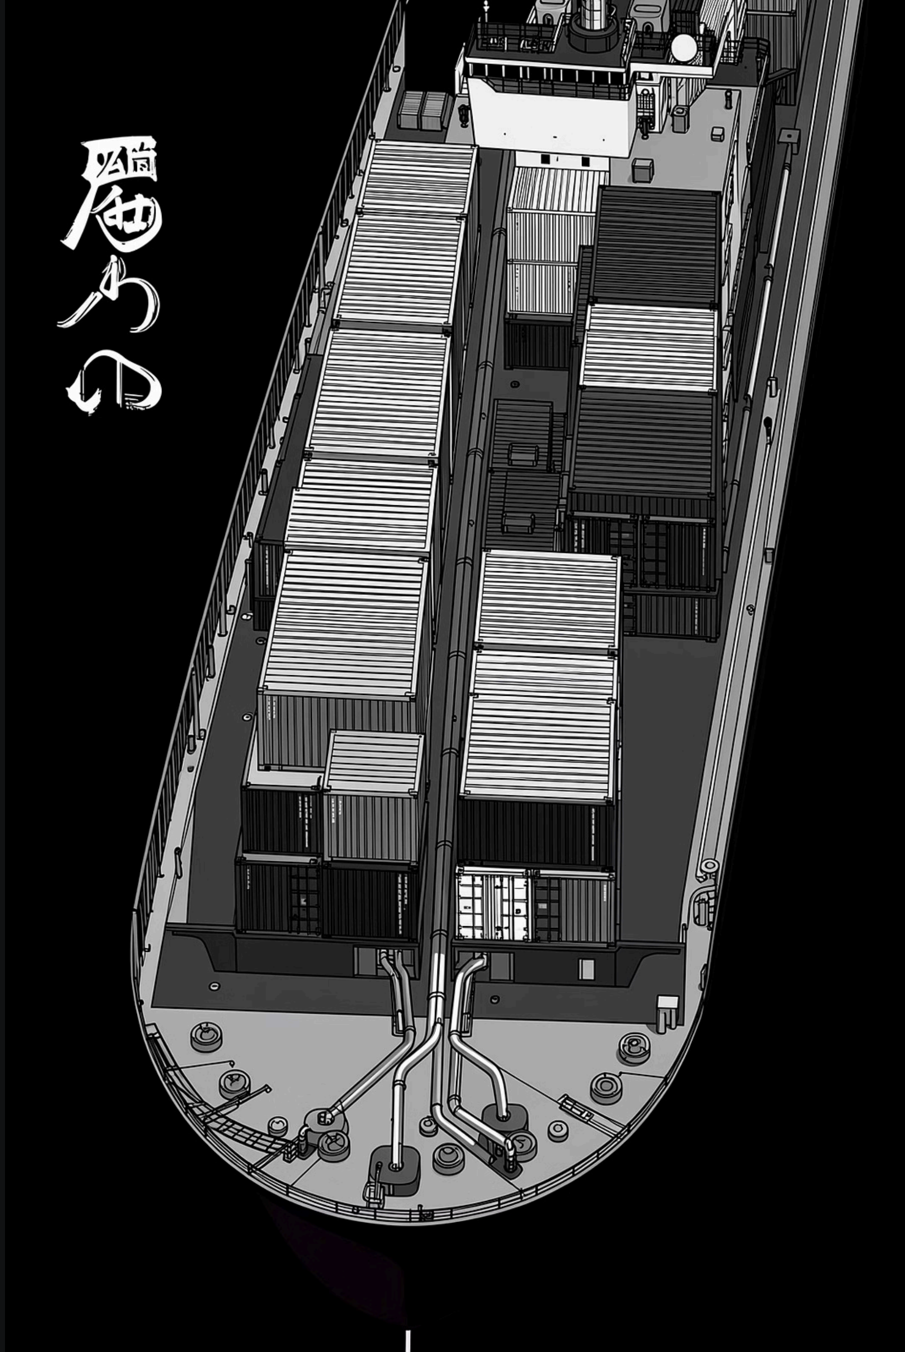
We contract, take title, and settle in our own name. No brokerage — full accountability at every stage.

Incoterms & Pricing

FOB, CFR and CIF terms. Pricing basis, laycan, and discharge terms fixed before commitment.

Settlement

Back-to-back, bankable contracts. Settlement by Letter of Credit (LC) or Telegraphic Transfer (TT).



PROCESS

Deal Execution Workflow

A disciplined, repeatable process on every transaction.

01

Enquiry & Screening

Counterparty enquiry received. KYC and sanctions screening completed before engagement.

02

Firm Offer & Contract

Firm offer issued on agreed Incoterms. Contract executed with clear pricing basis, laycan and specs.

03

Trade Finance & Settlement

LC or TT arrangement confirmed. Back-to-back, bankable structure in place before loading.

04

Inspection & Loading

Independent inspection at load port (SGS / Intertek / CCIC). Full documentation package prepared.

05

Freight & Discharge

Vessel nominated, laycan managed. Discharge coordinated across regional terminals.

FINANCE

Trade Finance & Banking

Backed by established trade finance partners and multiple banking relationships — enabling reliable, capital-efficient cargo execution.

Letter of Credit (LC)

Bankable LC facilities supporting back-to-back execution. Structured to meet seller and buyer bank requirements on every transaction.

Telegraphic Transfer (TT)

TT settlement available for qualifying counterparties and transactions, with clear payment terms agreed upfront.

Capital Efficiency

A lean, structured approach that lets us move cargo without tying up buyer or supplier liquidity unnecessarily.

Supply Origins

We source and trade product originating from **Malaysia, China, the Middle East, India, and Pakistan** — with refinery and producer origins including Petronas, ENOC, Formosa, and other tier-one sources.

Malaysia

Petronas origin. Refined products and crude streams.

China

Formosa and refinery-origin product across multiple grades.

Middle East

ENOC and Gulf-origin feedstocks and refined products.

India & Pakistan

South Asian refinery and producer origins across key grades.

Disclaimer: Brand names denote product origin only, not commercial endorsement or agency.

REACH

Markets We Serve

We deliver across Asia-Pacific — flexible discharge across major regional terminals and ports.

Vietnam

Active discharge across key southern and northern terminals.

Bangladesh

Growing demand market; regular product delivery to Chittagong and Mongla.

China

Refinery-origin and re-export flows; established counterparty relationships.

India

West and east coast terminals; multiple product categories.

South Korea

Clean products and specialty grades to Korean industrial buyers.

Philippines

Fuels and distillates to Manila and Cebu discharge points.

Additional markets served on enquiry. Discharge coverage subject to product and Incoterms.

Product Portfolio

A disciplined, multi-category platform spanning the full petroleum value chain.

Crude & Gas

Crude Oil, LNG, LPG

Fuels & Distillates

Gasoil, EN590, Light VGO

Process & Base Oils

RPO grades, Group I–III, White Oils

Bitumen & Residues

Penetration grades, Petroleum Coke

Petrochemicals & Specialties

Sulphur, Paraffin Wax, Solvents

Bio-Feedstocks

PFAD, UCO

CRUDE, GAS & FUELS

Energy Grades

Crude Oil

Sourced from verified refinery and producer origins across our supply corridors.

LNG & LPG

LNG priced to JKM. LPG referenced to Saudi Aramco CP — recognised global benchmarks.

Gasoil / EN590 & Light VGO

Clean distillates traded on clear pricing basis and agreed specification.

Oils, Bitumen & Specialties

Rubber Process Oils

Aromatic, TDAE, and naphthenic grades for rubber and industrial applications.

Base Oils

Group I, II and III; white oils and food-grade white oils to global specification.

Bitumen

Penetration grades 40/50, 60/70, 80/100. Petroleum Coke sourced to buyer specification.

Specialties & Bio

Sulphur, Paraffin Wax, Hydrocarbon Solvents, Petrochemical Intermediates, PFAD, UCO.

EXECUTION

Logistics & Execution

Global freight executed through leading ocean carriers including **Maersk and COSCO**.

Laycan Management

Reliable vessel nomination and scheduling discipline from first fixture to delivery.

Documentation Control

Complete trade documentation handled in-house to banking and LC-compliant standards.

Terminal Coordination

Discharge coverage across Southeast Asia, the Middle East, South Asia and beyond.

STANDARDS

Quality, Inspection & Compliance

Every cargo is independently verified. Every counterparty is screened. No exceptions.

Independent Inspection

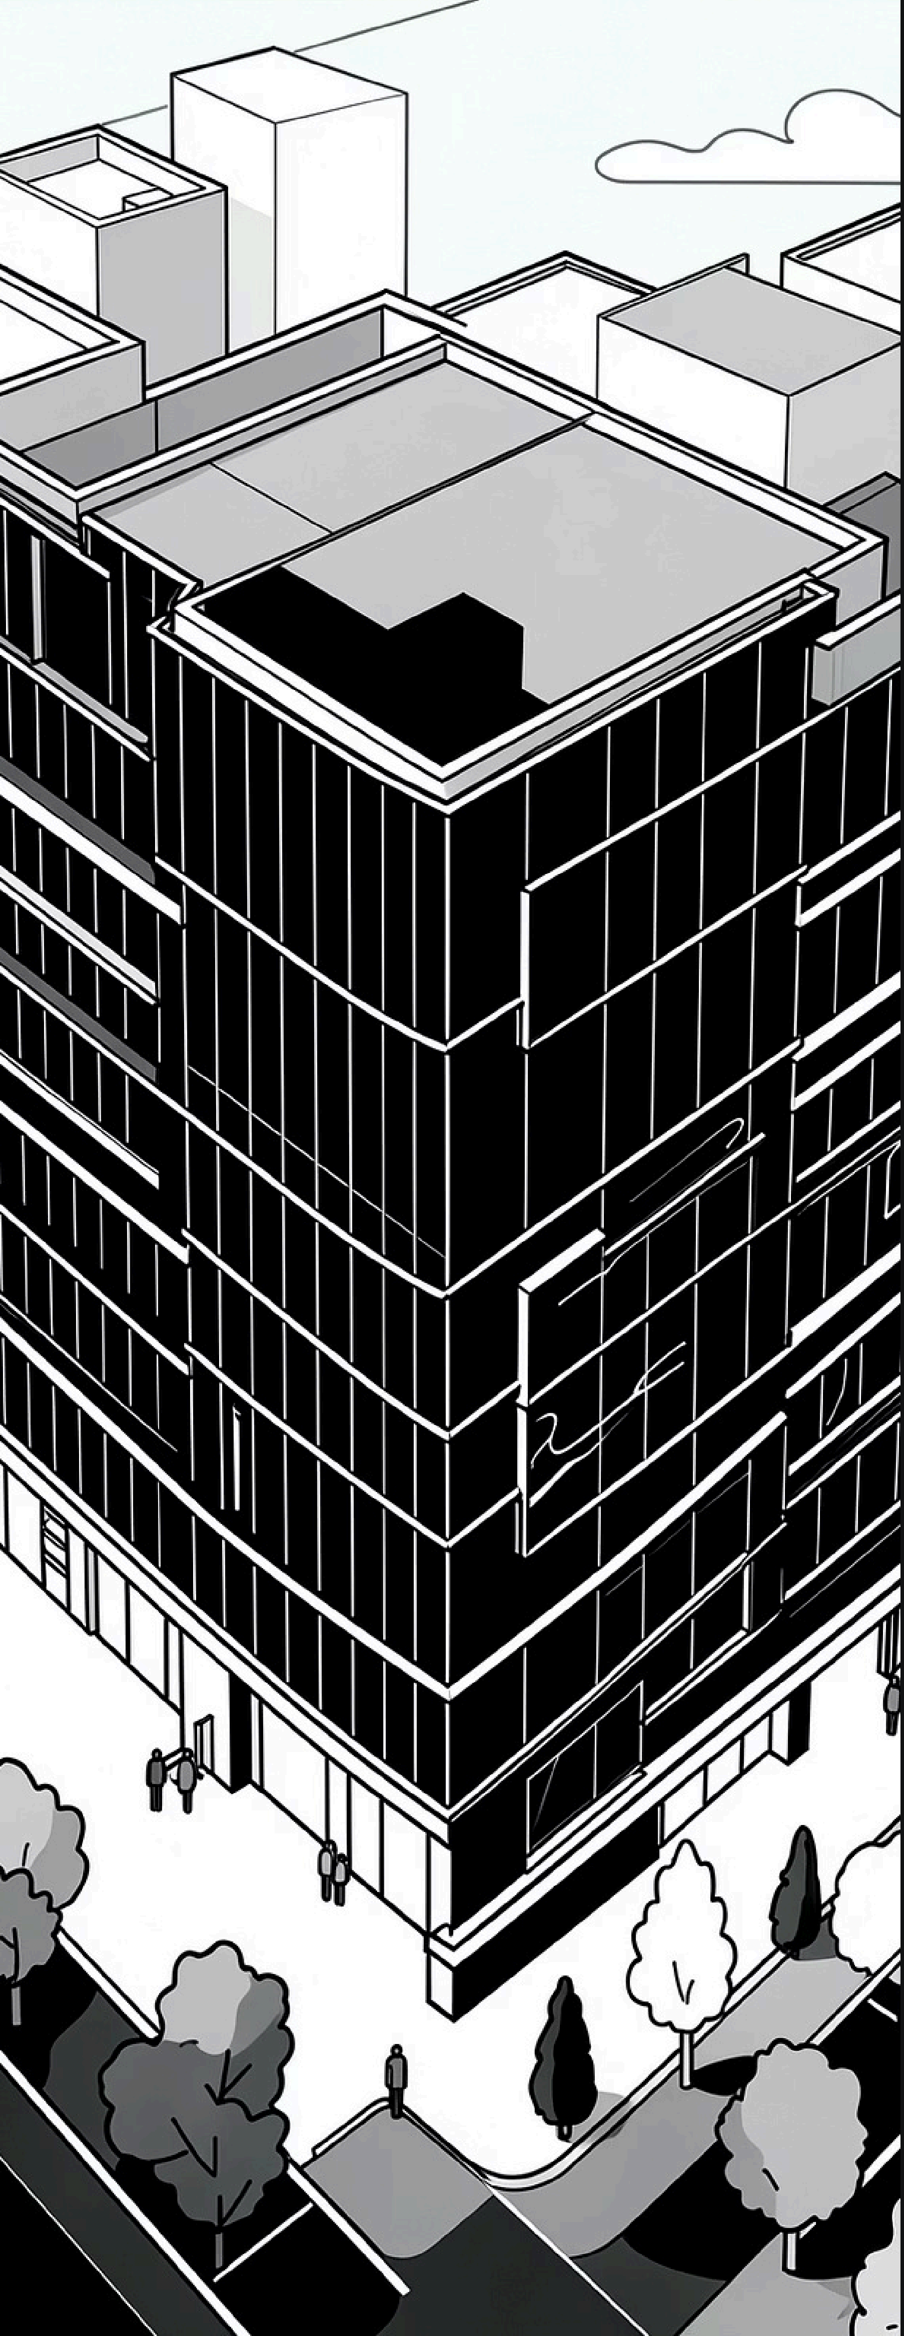
Load and discharge inspection by SGS, Intertek, and CCIC. Quantity and quality certified at every stage.

Technical Documentation

Full TDS, PDS, and COA provided on request for every grade. Specification compliance confirmed before contract.

KYC & Sanctions Screening

Counterparty KYC and sanctions screening conducted on every transaction, in line with international compliance standards.



CANVEN
